Medicare Part D Lists

Listings of the Part D plan chosen for cardholders are being distributed to the pharmacy that the cardholder uses most often. The intent is to help providers update their records as easily and as accurately as possible.

Part D plans are chosen for each cardholder based on the individual's pharmaceutical history. The Program attempts to match the member with the plan that will result in the most savings for each cardholder.

If a cardholder has any questions, please have them call **Cardholder Services at 1-800-225-7223**.

IMPORTANT: As you update your cardholder's profiles with primary payer information, **be sure to update the Other Payer ID (the BIN) in the Coordination of Benefits (COB) segment, Field 340-7C.** If the payer BIN information in the COB does not match the BIN of the primary payer, it appears to the program that the correct primary payer is **not** being billed—even though the COB segment may contain a payment amount. If you are unsure of the location of this COB information, please contact your software vendor.
